- High Machine Capacity (40.000/25.000 eggs/hour)
- Cost Efficient / Attractive pay back
- Ability to predict production / sales ahead !!
- Proven technology
- Low maintenance
- Graphical user interface

Technical description

RH-25 - 2 robots

RH-40 - 4 robots

Fully automated transfer of eggs from setter trolleys to hatcher basket. Robo-Hatch™ candles the eggs, and transfers only fertile eggs into hatcher basket.
